ADVISORY MEMBER:

- Water & Natural Resources Committee

Dear Constituents,

I constantly and carefully review progress made regarding issues that affect our families! Where there are obstacles, I work to remove them! I do it with heart, enthusiasm and full commitment! As a citizen legislator (not paid a salary), I do all I can – **full time** – to solve problems, help people overcome struggles in their lives, and improve the economy of our communities. *I sponsored SB 136 which will provide more venture capital opportunities for start-up New Mexico businesses and jobs!*

I am optimistic our district plans will continue to generate hope, progress and positive results! **By working together**, we have improved infrastructure, health care and education, stimulated our economy and brought quality to our way of living. For example: major **road improvements** from Mora to Angel Fire, at the exits leading into Raton, and south grand in Las Vegas; **health, elderly, frontier communities and long-term care services** in Cimarron, Springer, Vaughn, Wagon Mound, Watrous, Anton Chico, Las Vegas, La Loma and the Meadows Home in Las Vegas and the Miners Hospital in Raton; an outdoor **educational display** at the Rock Lake – Game and Fish – learning center at Santa Rosa and the vocational training initiative for high school students in northeast New Mexico; and, bringing new activity to downtown Santa Rosa by re-opening the Pecos Theatre. The Chief Theatre in Mora and the future Princess film academy in Tucumcari are underway!

There is much more ahead! Always with your input, we are working on a dynamic – 100% community - **Youth Center** at the LVCS Memorial Middle School facility that will support the holistic development of our children and families in northeastern New Mexico, **improving our dams** to store and distribute quality water for life, agriculture and recreation. We have already improved Bradner Dam in Las Vegas, Springer Dam, and Morphy Lake near Mora. More **highway and road improvements** on I-40 from Tucumcari to Santa Rosa, I-25 from Romeroville to Raton, Legion Drive and Hot Springs Blvd in Las Vegas, Road 62.9 and 63 improvements in Quay County, and more interchange and frontage road improvements at Raton; and, **preserving railroad service and the depots** at Lamy, Las Vegas and Raton; and, so much more!

We are improving the way green energy, public safety, emergency medical services, health care, education, nutrition and the economy are being delivered in northeast New Mexico! More capital outlay for acequias, community infrastructure, emergency and law enforcement services, senior and community centers, and quality of life outdoor environmentally friendly spaces like the Gallinas Riverwalk in Las Vegas are in the works!

I appreciate your courtesy, patience, persistence and genuine understanding that – *it's not just about one issue* – but the love, experience and support of each other to succeed as a state! **WHEN WE WORK TOGETHER**, our passion to make life better for our families radiates the way earth's energy was intended!
